BESCOM, at any time during a Contract Year, shall be obliged to purchase energy from the SPG of _____ Million kWh (MU) [Insert value of energy generated] corresponding to the declared CUF of 19% (Nineteen percent) for solar PV project.

During the first 10 years after COD, the minimun generation shall not be less than -15% of declared CUF _____Million kWh (MU) [Insert value of energy generated] of the Power Project, while after 10 years, the minimun generation shall not be less than -20% of declared CUF _____Million kWh (MU) [Insert value of energy generated].

If the generation is found to be below the prescribed limits as mentioned in this clause on account of reasons solely attributable to SPG, the SPG shall be liable for non-fulfilment of its obligation. The liability shall be levied by BESCOM, for non-supply of Power by the SPG. If the SPG failed to supply minimum energy on account of reasons solely attributable to it other than Article 14, the SPG shall be liable to compensate the BESCOM for shortfall in minimum generation at the rate agreed in PPA.

For any excess generation and any generation below the prescribed limits, "Prorata basis may be adopted for the first year from the date of COD".

In case of purchase of any excess energy:

BESCOM, at any time during a Contract Year, shall be obliged to purchase +10% of energy, corresonding to annual maximum CUF of 19%, from the Solar Power Generator and shall be charged at 75% rate equivalent to PPA tariff or any other tariff determined by KERC, whichever is less, provided first right of refusal will vest with BESCOM.

Purchase of any excess energy, beyond +10% energy generated corresponding to an annual maximum CUF of 19%, shall be deemed to have been supplied to BESCOM at free of cost.

In case at any point of time, the peak of capacity reached is higher than the contracted capacity and causes disturbance in the system at the point where power is injected, the SPG will have to forego the excess generation and reduce the output to the contract capacity and shall also have to pay the penalty/charges (if applicable) as per applicable regulations.

In case of off-take constraints due to transmission infrastructure or grid unavailability, the SPG and BESCOM shall follow the forecasting and scheduling process as per the KERC/IEGC regulations.

In case of off-take constraints due to Grid Unavailability at 11 kV bus level of sub-station:

In case of off-take constraints due to Grid Unavailability in a contract year, however, there can be some periods where the Project can generate power but due to temporary transmission unavailability, the power is not evacuated, for reasons not attributable to the SPG. In such cases, subject to the submission of documentary evidences from the competent authority, the generation compensation shall be restricted to the following and there shall be no other claim, directly or indirectly against BESCOM:

Duration of Grid unavailability	*Provision for Generation Compensation*
Grid unavailability excess of 5% in a contract year as defined in the PPA (only period from 8 am to 6 pm to be counted):	*Generation Loss = [(Average Generation per hour during the Contract Year) × (number of hours of grid unavailability during the Contract Year)]*
	Where, Average Generation per hour during the Contract Year (kWh) = Total generation in the Contract Year (kWh) ÷ Total hours of generation in the Contact year.

The excess generation by the SPG equal to this generation loss shall be procured by BESCOM at the PPA tariff so as to offset this loss in the succeeding 3 (three) Contract Years.

In case of any off-take constraints due to Back down by SLDC:

The SPG shall follow the forecasting and scheduling of power as per the Regulations issued from appropriate commission from time to time. The Government of India, as per Clause 5.2(u) of the Indian Electricity Grid Code (IEGC), encourages a status of "must-run" to solar power projects.

In case of system constraints due to technical problems and back down instruction given by SLDC for safety and security of the Grid, BESCOM shall not obliged to pay any damages / compensation to the SPG.

5.7. Extensions of Time

5.7.1. In the event that the SPG is prevented from achieving the progress in fulfilling the Conditions Precedent within the time stipulated in the PPA, BESCOM may grant extension of time with penalty as stipulated in Article 4.3 of this PPA. Such extension of time by BESCOM shall not affect the commissioning of the Project within the SCOD. In case the SPG delays in submission of Conditions Precedent document within specified/extended time period (only for Conditions Precedent), BESCOM will not be responsible on timely commissioning of the project within the PPA scheduled commissioning date.

In the event that the SPG is prevented from commissioning of the Project within the time stipulated in the PPA due to:

a) Any BESCOM Event of Default; or
b) Force Majeure Events affecting BESCOM; or
c) Force Majeure Events affecting the SPG

For the extension of time for clause (a), (b) OR (c), the SPG shall obtain approval of appropriate Commission, for commissioning of the solar project beyond SCOD. Upon approval of such extension by Commission, the SCOD and expiry date of PPA shall also be extended to that extent. However, the transfer of CFA to SPG by BESCOM for any such delay, is subject to release of CFA from MNRE.

5.7.2. As a result of such extension, the Scheduled Commissioning Date and the Expiry Date newly determined shall be deemed to be the Commissioning Date and the Expiry Date for the purposes of this Agreement.

5.7.3. In case, such delay in commissioning of the Project on any of the grounds stated by the SPG specified in the Article 5.7.1 (a), (b), (c) is condoned by BESCOM/appropriate Commission and if such condoned period is more than the MNRE specified/extended date for commissioning and availing CFA, the SPG is not eligible to claim CFA. However, BESCOM will not be held responsible to make good such losses due to non-release of CFA from MNRE.

5.8. Penalty for delay in commencement of supply of power to BESCOM

5.8.1. If the SPG is unable to commence supply of power to BESCOM by the SCOD other than for the reasons specified in Article 5.7.1, the SPG shall pay to BESCOM, Penalty for the delay in such commencement of supply of power and making the Contracted Capacity available for dispatch by the SCOD as per the following:

Crystalline Silicon Solar Cell Modules	IEC 61215
Thin Film Modules	IEC 61646

1.2 In addition, PV modules must qualify to IEC 61730 for safety qualification testing. For the PV modules to be used in a highly corrosive atmosphere throughout their lifetime, they must qualify to IEC 61701.

1.3 It will be mandatory to use indigenously manufactured solar panels and modules as per latest "Approved list of Models and Manufacturers (ALMM)" published by MNRE and amendments issued from time to time.

2. Power Conditioners/Inverters:

The Power Conditioners/Inverters of the SPV power plants must conform to the latest edition of IEC/equivalent Standards as specified below:

Efficiency Measurements	IEC 61683
Environmental Testing	IEC 60068 -2/IEC 62093
EM Compatibility (EMC)	IEC 61000-6-2, IEC 61000-6-4 & other relevant parts of IEC 61000
